## Examples

### ○ Horizon 2020

**Project name** | INTAROS

**Budget** | € 15 490 067

**Duration** | 01/12/2016 – 30/11/2021

**Objectives** | The overall objective of INTAROS is to develop an integrated Arctic Observation System (iAOS) by extending, improving & unifying existing systems in the different regions of the Arctic. INTAROS will have a strong multidisciplinary focus, with tools for integration of data from atmosphere, ocean, cryosphere and terrestrial sciences, provided by institutions in Europe, North America and Asia. The iAOS will enable better-informed decisions and better-documented processes within key sectors.

**Partner name** | Greenland Institute of Natural Resources
