O BEST2.0

Project name | Determining the feeding areas used by the community of seabirds breeding on the island of Grand Colombier

Budget | € 34 041

Duration | 01/05/2016 – 30/06/2017

Objectives | The project aimed at contributing to a better conservation of endemic seabirds and their habitat, and at identifying the marine areas used by two endemic seabirds (adult Leach's Storm-petrels and Atlantic Puffins) when breeding on Grand Colombier Island. They tracked them with miniaturized GPS devices.

Coordinator | Office National de la Chasse et de la Faune Sauvage (ONCFS) (<http://www.oncfs.gouv.fr/Services-de-police-de-lenvironnement/Service>)
